J. W. Deaton, Director (1984)
J. M. Casey, Director (1985)
H. R. Ball, Jr., Director (1985)

MANUSCRIPTS FOR PUBLICATION

Poultry Science (ISSN 0032-5791) is the official publication of the Poultry Science Association, a monthly journal published for the purpose of advancing the scientific study of poultry. Manuscripts for publication should be sent to the Editorial Office, Poultry Science Association, Inc., 309 West Clark Street, Champaign, IL 61820. Editorial requirements for submission of manuscripts appear on the inside back cover of this journal. Complete instructions appear Poultry Science 63:203–205.

A charge to authors of $35 per printed page or fraction thereof will be made to cover partially the costs of publication of Poultry Science. In cases where only the authors' personal funds are available for payment, and where such payments would be a hardship, authors may request a waiver of page charges. Such requests must be made prior to publication of the paper and should be accompanied by a statement by a financial officer or other official of the institution with which the author is affiliated and indicate the reason that the charges cannot be paid. Requests should be made in writing to H. S. Siegel, Editor-in-Chief, Poultry Science, SE Poultry Research Laboratory, ARS, USDA, 934 College Station Road, Athens, GA 30605.

Claims for copies lost in the mail or defective copies received must be received within 30 days (90 days foreign) of the date of issue to insure free replacement. Claims to be made to Poultry Science Association, 309 West Clark Street, Champaign, IL 61820.

SUBSCRIPTIONS AND ADVERTISING

The subscription rate is $60.00 annually in advance; single copies are $8.00. The journal is sent to all members of the Poultry Science Association, Inc., in good standing. All subscriptions should be sent to the Poultry Science Association, Inc., 309 West Clark Street, Champaign, IL 61820, (217-356-3182).

The advertising rate is $200 per page. All advertising contracts and copy should be sent to the Poultry Science Association, 309 West Clark Street, Champaign, IL 61820.

CONTENTS

BREEDING AND GENETICS
Effect of Selection for Fertility of Frozen-Thawed Semen in Chickens on the Fertility of Fresh and Stored Semen. Y. F. Yousif, G. A. Ansah, and R. B. Buckland ........................................ 1475

EDUCATION AND PRODUCTION
Reproductive Performance of Broiler Breeders Exposed to Cycling High Temperatures from 17 to 20 Weeks of Age. J. A. Renden and G. R. McDaniel ........................................ 1481
Increasing Hatchability of Turkey Eggs by Matching Incubator Humidity to Shell Conductance of Individual Eggs. M. Meir, A. Nir, and A. Ar ........................................ 1489

ENVIRONMENT AND HEALTH
CL 259,971: A Potent New Polyether Anticoccidial. 2. Floor-Pen Trials. S. Kantor, R. H. Schenkel, and R. L. Kennett, Jr. ........................................ 1506
Evidence for the Inhibition of Fungi in Corn Meal by Organic Acids Being Dependent on the Character of the Corn Meal. Z. Tabib, R. C. Dixon, W. M. Hagler, and P. B. Hamilton ........................................................................ 1516
Chicks Reared for the Cornish Hen Market in Floor Pens and Cages. L. D. Andrews and J. H. Whitmore ........................................ 1524

METABOLISM AND NUTRITION
Fluorosis in the Laying Hen. B. Van Toledo and G. F. Combs, Jr. ........................................ 1543
Use of Plasma and Egg Yolk Biotin of White Leghorn Hens to Assess Biotin Availability from Feedstuffs. J. L. Buenrostro and F. H. Kratzer ........................................................................ 1563
Effects of Vitamin D₃, Calcium, and Phosphorus on Growth and Bone Development of Market Turkeys. V. I. Stevens, R. Blair, and R. E. Salmon ........................................................................ 1571
Plasma Triglyceride and Glucose Clearance in Broiler-Type and White Leghorn Chickens with Different Degrees of Adiposity. B. E. March ........................................ 1586
Lead Toxicity in the Chick as Affected by Excess Copper and Zine and by Eimeria acervulina Infection. K. W. Bafundo, D. H. Baker, and P. R. Fitzgerald ........................................ 1594
Choline and Methionine Supplementation of Layer Diets Varying in Protein Content.  
C. M. Parsons and R. W. Leeper ................................................. 1604

A Modified Voluntary Feed Intake Bioassay for Determination of Metabolizable Energy  
with Leghorn Roosters. C. M. Parsons, L. M. Potter, and B. A. Bliss .............................. 1610

The Roles of Protein Level and Diet Form in Water Consumption and Abdominal Fat  
Pad Deposition of Broilers. H. L. Marks and G. M. Pesti ........................................ 1617

Responses to Dietary Self Selection and Calories in Liquid Form by Weight Selected Lines  
of Chickens. T. B. Brody, J. A. Cherry, and P. B. Siegel ........................................ 1626

The Influence of the Grower Diet and Fat in the Layer Diet on Performance of Turkey  
Hens. R. H. Harms, R. E. Buresh, and H. R. Wilson .............................................. 1634

PHYSIOLOGY AND REPRODUCTION

The Role of 17β-Estradiol in the Recovery from Oviductal Prolapse in Layers. M. Shemesh,  
L. Shore, S. Lavi, M. Ailenberg, U. Bendheim, A. Totach, and Y. Weisman ....................... 1638

Two Methods for Serial Blood Sampling from Unrestrained, Undisturbed Turkeys with  
Notes on the Effects of Acute Stressors on Plasma Levels of Prolactin. H. Opel and  
J. A. Proudman ................................................................. 1644

Catabolism of Phospholipids by Chicken Seminal Components After Storage. W. D.  
Resseguie and B. L. Hughes .................................................. 1653

RESEARCH NOTES

The In Vivo Benefit of Ethoxyquin for Egg Yolk Pigmentation. R. H. Harms, R. E. Buresh,  
and B. L. Damron .............................................................. 1659

A Surgical Technique for Serial Blood Sampling or Continuous Infusion of Adult Turkey  
Hens. J. P. McMurtry and D. M. Brocht ........................................ 1661

True Metabolizable Energy and Amino Acid Composition of Wheat and Triticale and  
Their Comparative Performance in Turkey Starter Diets. R. E. Salmon ........................ 1664

The Influence of Feeding Program on Peak Production and Avoiding Sudden Declines  
in Production with Broiler Breeders. R. H. Harms .................................................. 1667

Determining the Value of Improvements in Production Efficiency. F. N. Reece ................ 1669

Drinking Water Treatment with a Commercial Preparation of a Concentrated Lactobacillus  
Culture for Broiler Chickens. B. A. Watkins and F. H. Kratzer ................................. 1671

A Simple and Inexpensive Caging System for Use in Laboratory Studies with Poultry.  
R. D. Wyatt and R. A. Pegram .................................................................. 1674

Time of Mating Behavior by Males from Lines of Chickens Selected for High and Low  
Mating Frequency. C. C. Blobowiak and H. P. Van Krey .......................................... 1677
CBE STYLE MANUAL
Fifth Edition
A guide for Authors, Editors, and Publishers in the Biological Sciences
Widely accepted and recommended as the standard reference for journals and books in the biological sciences

Special features of this newly updated and greatly expanded edition include:
• four new chapters;
• reorganization of the "Manuscript Preparation" section for easier reference;
• new conventions in the chapter on "Style in Special Fields";
• complete revision of the section on "Plant Sciences";
• cross-listing of "Abbreviations and Symbols";
• cross-listing of "Abbreviations and Symbols";
• and much more . . .

CONTENTS: Ethical conduct in authorship and publication • Planning the communication • Writing the article • Prose style for scientific writing • References • Illustrative materials • Editorial review of manuscripts • Application of copyright law • Manuscript into print • Proof correction • Indexing • General style conventions • Style in special fields • Abbreviations and symbols • Word usage • Secondary services for literature searching • Useful references with annotations • Subject index

ISBN: 0-914340-04-2; clothbound; publication date: September 1983; trim size 6 x 9 inches; 324 pages

Regular Price: $24.00 (10% discount on 10 or more copies delivered to one address)
CBE Member Price: $21.50 (single copy paid by personal check)

Terms of Sale: All sales final; no returns.
Prepayment required; U.S. currency drawn on a U.S. bank.
Price includes BOOK RATE postage.
For faster delivery--first class, air mail, or UPS available at additional charge (book weight 1 lb 9 oz).
Maryland residents, please add 5% sales tax.
