POULTRY SCIENCE

Volume 66 OCTOBER 1987 Number 10

CONTENTS

BREEDING AND GENETICS

Egg Production of Cage-Housed Turkey Hens from Three Lines Selected for Increased Number of Settable Eggs. K. E. Nestor, W. L. Bacon, P. A. Renner, and G. B. Havenstein ............................................. 1571

EDUCATION AND PRODUCTION

Influence of Feeding a High Calcium Diet for Various Durations in Preluay Period on Growth and Subsequent Performance of White Leghorn Pullets. K. Keshvarz .... 1576
Influence of Presence of Perches During Rearing on Incidence of Floor Laying in Broiler Breeders. J. Brake .................................................. 1587
Effect of an Evaporative Cooling and Dust Control System on Rearing Environment and Performance of Male Broiler Chickens. W. L. Willis, M. D. Ouatt, and C. L. Quarles . 1590
Effect of Early Availability of Feed and Water on Bobwhite Quail Chicks. H. R. Wilson and V. P. Dugan ............................................. 1594

ENVIRONMENT AND HEALTH

Toxicity to Ducklings of Fusarium moniliforme Isolated from Corn Intended for Use in Poultry Feed. N. Jeschke, P. E. Nelson, and W. F. O. Marasas ........................................... 1619
Performance and Carcass Quality of Broilers Reared on Wire Flooring, Plastic Inserts, Wood Slats, or Plastic-Coated Expanded Metal Flooring Each with or Without Padded Roosts. G. D. Simpson and H. S. Nakae .................................................. 1624
Efficacy of Halofuginone as a Coccidiostat for Turkeys. P. E. Waibel, J. E. Enueme, J. C. Halvorson, and R. J. Grant ................................................... 1629

METABOLISM AND NUTRITION

Reduction in Abdominal Fat Content of Broiler Chickens by the Addition of Feather Meal to Finisher Diets. M. C. Cabel, T. L. Goodwin, and P. W. Waldroup ........................................... 1644
Lysine and Sulfur Amino Acid Utilization in *Eimeria acervulina*-Infected Chicks as Affected by Narasin. O. A. Izquierdo, C. M. Parsons, and D. H. Baker .................. 1652

**PHYSIOLOGY AND REPRODUCTION**

Ingestive Behavior of Meat and Egg-Type Chickens: Equal Sensitivity to Naloxone. J. F. McCormack and D. M. Denbow .................. 1714

Effect of Semen Treatments and Age of Tom on Fertility of Unstored Semen and Semen Held 18 Hours. T. J. Sexton .................. 1721

Plasma Corticosterone Response of Turkeys to Adrenocorticotropic Hormone: Age, Dose, and Route of Administration Effects. G. S. Davis and T. D. Slopes .................. 1727

**ASSOCIATION NOTES**

Book Review .......................... 1733

Positions Available .................. 1734

Position announcements should be sent directly to Suzanne Mitten-thal, Poultry Science Association, Inc., 309 West Clark Street, Champaign, IL 61820. Rates are $50 for the first two inches (minimum) and $25 for each additional inch or fraction thereof.
