CONTENTS

BREEDING AND GENETICS
Heterosis in Normal Versus Dwarf Laying Hens.
P. Mérat, F. Minvielle, A. Bordas, and G. Coquerelle... 1

Differences in Major Histocompatibility Complex Frequencies After Multitrait, Divergent Selection for Immunocompetence.
R. P. Kean, W. E. Briles, A. Cahaner, A. E. Freeman, and S. J. Lamont. 7

Direct and Correlated Responses to Multitrait, Divergent Selection for Immunocompetence.
R. P. Kean, A. Cahaner, A. E. Freeman, and S. J. Lamont... 18

EDUCATION AND PRODUCTION
The Relationship of Maximum or Intermediate Coccidiostat Levels to Broiler Chick Water Intake.
B. L. Damron................................. 33

The Effect of Protein Level Fed During the Prebreeder Period on Performance of Large White Turkey Breeder Hens After an Induced Molt.
J. L. Grimes, J. F. Ort, and V. L. Christensen.................... 37

Effect of Particle Size on Performance. 1. Corn.
I. Nir, G. Shefet, and Y. Aaroni................................ 45

Is the Haugh Unit Correction for Egg Weight Valid for Eggs Stored at Room Temperature?
F. G. Silversides and P. Villeneuve................................ 50

ENVIRONMENT AND HEALTH
Effect of Dietary Lactose and Cell Concentration on the Ability of a Continuous-Flow-Derived Bacterial Culture to Control Salmonella Cecal Colonization in Broiler Chickens.

Hypercalciuric Response to Dietary Supplementation with DL-Methionine and Ammonium Sulfate.
A. J. Lent and R. F. Wideman................................. 63

Acute Heat Acclimation and Kidney Function in Broilers.
R. F. Wideman, B. C. Ford, J. D. May, and B. D. Lott........... 75

Mechanism of Transovarian Transmission of Salmonella enteritidis in Laying Hens.
D. Thiagarajan, A. M. Saeed, and E. K. Asem..................... 89

Effect of Cecal Cultures Encapsulated in Alginate Beads or Lyophilized in Skim Milk and Dietary Lactose on Salmonella Colonization in Broiler Chicks.
IMMUNOLOGY
Evidence Against the Induction of Immunological Tolerance by Feeding Antigens to Chickens.
C. C. Miller and M. E. Cook ........................................ 106

Bursectomy and In Vitro Response of Adrenal Gland to Adrenocorticotropic Hormone and Testis to Human Chorionic Gonadotropin in Immature Male Chickens.
A. A. El-Far, M. M. Mashaly, and G. A. Kamar .................... 113

METABOLISM AND NUTRITION
The Utilization of Sodium in Sodium Zeolite A by Broilers.
R. Fethiere, R. D. Miles, and R. H. Harms .......................... 118

Biological Value of Bone-Precipitated Dicalcium Phosphate in Turkey Starter Diets.

Effect of Varying Period of Early Nutrient Restriction on Growth Compensation and Carcass Characteristics of Male Broilers.
A. K. Zubair and S. Leeson ............................................. 129

The Effect of t-Hydroxy-t-Methylbutyrate on Growth, Mortality, and Carcass Qualities of Broiler Chickens.
S. Nissen, J. C. Fuller, Jr., J. Sell, P. R. Ferket, and D. V. Rives 137

Oligosaccharides in Canola Meal and Their Effect on Nonstarch Polysaccharide Digestibility and True Metabolizable Energy in Poultry.
B. A. Slominski, L. D. Campbell, and W. Guenter ........................ 156

E. V. Valdes and S. Leeson ............................................. 163

Determination of Metabolizable Energy of Feed Grade Fats Based on the Application of Near Infrared Reflectance to the Multilevel Test Diets.
E. V. Valdes and S. Leeson ............................................. 172

PHYSIOLOGY AND REPRODUCTION
The Effects of Sex Steroid Hormones on the Pigment Accumulation in the Shell Gland of Japanese Quail.
T. Soh and O. Koga ................................................... 179

Plasma Concentrations of Corticosterone and Thyroid Hormones in Broilers Provided Various Lighting Schedules.
J. A. Renden, R. J. Lien, S. S. Oates, and S. F. Bilgili ............... 186

Effects of Ascorbyl-2-Polyphosphate on Adrenocortical Activation and Fear-Related Behavior in Broiler Chickens.
D. G. Satterlee, R. B. Jones, and F. H. Ryder ...................... 194
