## Contents

### Breeding and Genetics

Genetics of Growth and Reproduction in the Turkey. 14. Changes in Genetic Parameters Over Thirty Generations of Selection for Increased Body Weight  
**K. E. Nestor, J. W. Anderson, and R. A. Patterson**

Relationships Between Bilateral Asymmetry and Tonic Immobility Reaction or Heterophil to Lymphocyte Ratio in Five Breeds of Chickens  
**J. L. Campo, M. García Gil, I. Muñoz, and M. Alonso**

Comparative Performance, Blood Chemistry, and Carcass Composition of Two Lines of Pekin Ducks Reared Mixed or Separated by Sex  
**A. Farhat and E. R. Chavez**

Vitamin E and Immune Responses of Broiler Pureline Chickens  
**K. Boa-Amponsem, S.E.H. Price, M. Picard, P. A. Geraert, and P. B. Siegel**

### Environment and Health

Laying Hen Behavior. 1. Effects of Cage Type and Startle Stimuli  
**J. J. Elston, M. M. Beck, S. D. Kachman, and S. E. Scheideler**

Laying Hen Behavior 2. Cage Type Preference and Heterophil to Lymphocyte Ratios  
**J. J. Elston, M. Beck, M. A. Alodan, and V. Vega-Murillo**

Physical, Chemical, and Microbiological Changes in the Ceca of Broiler Chickens Subjected to Incremental Feed Withdrawal  
**A. Hinton, Jr., R. J. Buhr, and K. D. Ingram**

### Research Notes

Effects of Nutritionally Balanced and Stabilized Flaxmeal-Based Diets on *Eimeria tenella* Infections in Chickens  
**P. C. Allen, H. Danforth, and P. A. Stitt**

### Education and Production

The Use of Instructional Technology in Poultry Science Curricula in the United States and Canada: 1. Demographics of Technology and Software Use  
**J. G. Hogle, G. M. Pesti, and J. M. King**

The Use of Instructional Technology in Poultry Science Curricula in the United States and Canada: 2. Factors Contributing to the Use of Instructional Technology  
**J. G. Hogle, G. M. Pesti, J. M. King**

The Effects of Long-Term Caging and Molt of Single Comb White Leghorn Hens on Heterophil to Lymphocyte Ratios, Corticosterone and Thyroid Hormones  
**G. S. Davis, K. E. Anderson, and A. S. Carroll**

### Metabolism and Nutrition

Influence of Genetic Selection for Antibody Production Against Sheep Blood Cells on Energy Metabolism in Laying Hens  
**M. M. Mashaly, M.J.W. Heetkamp, H. K. Parmentier, and J. W. Schrama**

Protein and Energy Evaluation of Soybean Meals Processed from Genetically Modified High-Protein Soybeans  
**H. M. Edwards, III, M. W. Douglas, C. M. Parsons, and D. H. Baker**

Nutritional Value of Enzyme- or Sodium Hydroxide-Treated Feathers from Dead Hens  
**W. K. Kim and P. H. Patterson**
Research Notes
The Effects of Various Dietary Levels of Phytase and Available Phosphorus on Performance of Laying Hens
S. D. Boling, M. W. Douglas, R. B. Shirley, C. M. Parsons, and K. W. Koelkebeck ............... 535

PROCESSING AND PRODUCTS
Effects of Dietary Vitamin E on the Quality of Table Eggs Enriched with n-3 Long-Chain Fatty Acids
A. Meluzzi, F. Sirri, G. Manfreda, N. Tallarico, and A. Franchini ........................................ 539
Body Composition and Development Measured Repeatedly by Computer Tomography During Growth in Two Types of Turkeys
U. T. Brenoe and K. Kolstad ................................................................................................. 546
The Characterization and Incidence of Pale, Soft, Exudative Turkey Meat in a Commercial Plant
C. M. Owens, E. M. Hirschler, S. R. McKee, R. Martinez-Dawson, and A. R. Sams ............. 553
Influence of the Level and Location of Contamination on the Multiplication of Salmonella enteritidis at Different Storage Temperatures in Experimentally Inoculated Eggs
R. K. Gast and P. S. Holt ........................................................................................................ 559

PHYSIOLOGY AND REPRODUCTION
Plasma 17β-Estradiol Levels and Ovarian Interstitial Cell Structure in Embryonic Japanese Quail
M. A. Abdelnabi, M. R. Bakst, J. E. Woods, and M. A. Ottinger ........................................ 564
Identification of Epididymal Stones in Diverse Rooster Populations,
S. J. Janssen, J. D. Kirby, R. A. Hess, M. Rhoads, D. Bunick, K. L. Bailey, C. M. Parsons, H. Wang, and J. M. Bahr ......................................................................................... 568
Parathyroid Hormone Receptor Binding Property in the Shell Gland of Oviduct of the Guineafowl during an Oviposition Cycle
H. Ogawa, T. Takahashi, T. Yasuoka, T. Kuwayama, K. Tanaka, and M. Kawashima ............ 575
Extraction and Quantification by ELISA of Eggshell Organic Matrix Proteins (Ovocleidin-17, Ovalbumin, Ovotransferrin) in Shell from Young and Old Hens
M. Panheleux, Y. Nys, J. Williams, J. Gautron, T. Boldicke, and M. T. Hincke ...................... 580
Identification of Some Components of Basal Lamina of Avian Ovarian Follicle
Morphometric and Mechanical Properties of Femora in Young Adult Male Turkeys with and Without Femoral Fractures
R. Crespo, S. M. Stover, K. T. Taylor, R. P. Chin, and H. L. Shivaprasad ............................. 602

ASSOCIATION NOTES
Nunc Dimittis ................................................................. 609
Book Reviews ............................................................... 610
Positions Available ....................................................... 611
